Hey candidate,

Thanks for applying for the Software Engineer Trainee role at HROne - where code meets culture, and passion powers progress.

We're building something big, and you could be part of our tech team - helping us shape the future of HR technology! But before we jump into interview mode, here's everything you need to know to get started.

About HROne

HROneis an HRMS software designed to simplify employee management, payroll, compliance, and time tracking for businesses of all sizes. It offers a unified platform with features like employee data management, leave tracking, payroll processing, and attendance monitoring. We're not just another HR software.

Job Details

- Training Period (First 6 Months) – ₹15,000/month (with hands-on training & mentorship)
- Post conversion to FTE– ₹6 LPA (based on performance & confirmation)

Workplace

- Location: Noida, Sector 68 (QAIPL Building, 5th Floor)
- Timing: 10 AM to 6 PM, Mon-Fri
- Work from office, 5 days

FirstRound - TaskChallenge
Deadline - 19th Aug, 2025

Your first task (first round) is to solve and submit a task based on which we would be making our first shortlist. Based on which track you are applying for,

you can pick and chose the task, as well as try solving for both tracks.

- ~~Frontend Task~~
- ~~Backend Task~~

Submission Guidelines

To submit your task, please check and follow the details given in the Task Links themselves. The last day to submit your task is 11:59pm IST on 19th Aug, 2025.

Hoping for you to solve this challenge quickly as well as learn something new while doing it.

Thanks & Regards
Team HROne
